Our focus as an organization is that of education and direction.

Illinois Valley Citizens for Life provides educational materials, speakers, videos, a resource center, and hopefully shortly a youth group to deliver the prolife message that every life is precious and must be protected from the moment of conceptions to natural death.

Our hopes with our Annual Life Fundraiser, is to promote our abilities to continue our work and grow as an organization and to increase the awareness of pro-life through our resource center and activities, and our out reach programs.
